cathym571@aol.com
Home Phone: (508) 758-4768
Office Hours: Monday 10 am – 1 pm
Wednesday 10 am – 1 pm
Thursday 10 am – 3 pm

Physics for Scientists and Engineers with Modern Physics (4th edition),
Giancoli

Reading
Homework: We will cover Chapters 1 through 20 according to the included schedule covering the basic laws and concepts of Newtonian mechanics with a brief foray into thermodynamics. Homework from the Exercises, Problems, and Challenge Problems at the end of each chapter will be assigned on Thursday and due the following Thursday to your recitation instructor. It is reasonable to assume that your performance on these assignments will contribute to the grade assigned by your recitation instructor. Solutions to the problems will be posted on the Thursday following their assignment.

Exams: There will be four hour exams with dates and chapters covered listed on the schedule. And there will be a comprehensive final exam. The grades on these exams together with the grade provided by your recitation instructor will be the basis for your course grade. All items will be weighted equally.

If you are a student with a documented disability and require accommodations to be made for you in class, please see me immediately.
